What's Impacting Your Score

Below are the aspects of your credit profile and history that are important to your Equifax credit score. They are listed in order of impact to your score - the first has the largest impact, and the last has the least.

- Number of trades opened in last 12 months.
- Number of telco inquiries in the last 12 months.
- Number of inquiries in previous 12 months.

Your Loan Risk Rating

716 | Good

Your credit score of 716 is better than 27% of Canadian consumers.

The Equifax Credit Score™ ranges from 300-900. Higher scores are viewed more favorably.

The Bottom Line :

Lenders consider many factors in addition to your score when making credit decisions. However, most lenders would consider you to be a moderate risk. You may not qualify for credit with all lenders. When you do qualify for credit, you may pay higher interest rates and be subject to more restrictive loan terms than those with higher scores. If you're in the market for credit, this is what you might expect:

- You may not qualify for high credit limits on your credit card.
- You are likely to pay higher interest rates on all types of loans than those with higher scores.
- The loan terms you receive may be somewhat restrictive.

It is important to understand that your credit score is not the only factor that lenders evaluate when making credit decisions.

Delinquency Rates*

Different lenders set their own policies and tolerance for risk, and may consider other elements, such as your income, when analyzing your creditworthiness for a particular loan.

300- 499	500- 549	550- 599	600- 649	650- 699	700- 749	750- 799	800+
-------------	-------------	-------------	-------------	-------------	-------------	-------------	------

* Delinquency Rate is defined as the percentage of borrowers who reach 90 days past due or worse (such as bankruptcy or account charge-off) on any credit account over a two year period.
